O LO: Can I evaluate how effective non-chronological reports are by looking at their features?

Using the three non-chronological text examples on the timetable under 'Tuesday - English', write notes within the table about the features they have, how they are presented (e.g. the layout of the images, captions and pieces of text), how clear they are (are you able to easily learn lots of information from it?) and give them a score out of 10. 10 would be that the non-chronological report is perfect and 0 would be that there is lots to improve on. You are welcome to use the table template here or draw it out yourself if you feel that you need more space in which to write your notes. You can take another look at the English input video for this week (linked under Tuesday English) for another brief summary of this task if that would help you.

Name of non-chronological report	Features it includes	Presentation	Clarity	Score
