LO: I am getting better at following instructions and can accurately draw lines to the nearest whole centimetre or half centimetre to create my own stick man.

### Year 1

1. Draw a body that is 10 cm long.
2. Give your stick person two legs, they must each measure 5cm
3. Your stick person needs two arms that are 4cm each.
4. On the ends of your legs can you give your stick person 2 feet. They need to be 1cm each.
5. Draw a head on your stick person and give them a face.
6. Remember to label each part of the body with the correct measurement.

Ext

Can you draw a stick dinosaur and label the measurements of its head and body?

### Year 2

1. Draw a body that is 10.5 cm long.
2. Give your stick person two legs, they must each measure 5.5cm
3. Your stick person needs two arms that are 45mm each.
4. On the ends of your legs can you give your stick person 2 feet. They need to be 1.5cm each.
5. Draw a head on your stick person and give them a face.
6. Remember to label each part of the body with the correct measurement.
